Professor Muhammad Rahman Elected Chair
ASME Strategic Planning Committee

The Strategic Planning Committee is part of the ASME Technical Communities Operating Board.

TAMPA, Fla (July 5, 2012) Luc Geraets, vice president of the American Society of Mechanical Engineers (ASME), recently announced Mechanical Engineering Professor Muhammad Rahman’s election to the Chair of the Strategic Planning Committee (SPC) of the ASME Technical Communities Operating Board (TCOB). His three-year appointment runs from July 2012 to June 2015.

The SPC provides advice and strategic guidance for technical knowledge dissemination of ASME’s Knowledge and Community Sector to the Board of Technical Knowledge Dissemination (BTKD) and committees that report to the BTKD as well as to other committees, technical groups, technical divisions, centers and institutes through BTKD and TCOB. In addition, the SPC oversees the Emerging Technologies Management Process.

In 2011, Professor Rahman, a Fellow of ASME, received the ASME Distinguished Service Award and has served on several ASME boards and committees, including as associate technical editor for Journal of Solar Energy Engineering and currently for Journal of Energy Resources Technology.

-USF-

The University of South Florida is a high-impact, global research university dedicated to student success. USF is classified by the Carnegie Foundation for the Advancement of Teaching in the top tier of research universities, a distinction attained by only 2.2 percent of all universities. The Carnegie Foundation also classifies USF as a community engaged university. It is ranked 44th in total research expenditures and 34th in federal research expenditures for public universities by the National Science Foundation. The USF System has an annual budget of $1.5 billion, an annual economic impact of $3.7 billion, and serves 47,000 students in Tampa, St. Petersburg, Sarasota-Manatee and Lakeland.
