

### **Ana Lopez wins an Excellence in Undergraduate Research Award**

Ana Lopez, a Mechanical Engineering student, received an Excellence in Undergraduate Research Award for her presentation at the 2014 Undergraduate Research and Arts Colloquium. Her project, titled, “Ankle and Hip Biomechanics of Ballet Dancers in Closing First, Third and Fifth Position,” was a collaborative study with CARRT researchers, Dr. Stephanie Carey, an Assistant Research Professor, Mechanical Engineering and Merry Lynn Morris, a faculty member from the Dance Program in the College of the Arts. Ana will be recognized at a luncheon and will be given \$225 in recognition of her achievement.
